

PERSONAL BRAND FRAMEWORK

Engineering Student · Innovator · Learner

ANANYA VALASANG · First-Year Engineering Student at Presidency University

Who I Am

A first-year engineering student with a curiosity for technology and a drive to grow. I explore new ideas, embrace challenges, and build my skills one step at a time.

What I Study

Computer Science and
Engineering · Second semester ·
Presidency University

My Focus Areas

Technology · Problem-Solving ·
Continuous Learning ·
Professional Growth

Purpose & Core Values

My Purpose

To build a strong engineering foundation, discover my interests, and grow into a skilled, responsible professional — learning continuously along the way.

Core Values

Curiosity

Open-minded and always exploring

Consistency

Disciplined, step-by-step progress

Growth

Improving every single day

Integrity

Honesty, teamwork & respect

Strengths & Skills

My Strengths

→ Self-Motivated

I take initiative and push myself without needing external pressure.

→ Adaptable

I adjust quickly to new environments, tools, and challenges.

→ Experiment-Oriented

I'm not afraid to try, fail, and learn from the experience.

Skills in Development

Programming Basics

Building foundational coding skills

Problem-Solving

Logical thinking & structured analysis

Communication

Clear, confident expression of ideas

Prompt Writing

Honed at Innovatex competition

Building My Brand

Initiative

Innovatex — Prompt Writing Competition

Participated in a college-level event that challenged my creativity, critical thinking, and ability to communicate ideas clearly under pressure.

As a first-year student, I'm actively building credibility through participation, learning, and consistent effort. Every experience adds to my story.

How I Show Up

Online Presence

Building a clean, professional LinkedIn profile to document my journey, projects, and achievements.

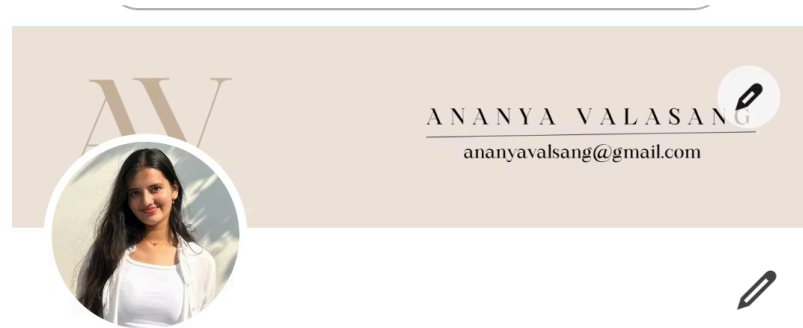

Offline Presence

Presenting myself with confidence, discipline, and curiosity in every academic and personal interaction.

CONNECT

Let's Connect

I'm actively building my network and looking for opportunities to learn, collaborate, and grow. Reach out — I'd love to connect.
